

After-School & Summer Programs

Our Knowledge Plus! after-school and summer programs enable students to continue learning even after the last bell rings. Our combination of experienced teachers, individualized attention, and low student to teacher ratios allows student to flourish.

Future Plus!

Preparing students for life after school is critical to ensuring that they understand real world endeavors. We help prepare your students by teaching them how to pursue a post-secondary education, secure employment, and build positive professional relationships. We have students complete a Career Interest Survey which helps identify courses and topics that will benefit them in the future. We use real life applications and discussion groups to help students address the challenges of transitioning into the real world.
