

After-School & Summer Programs

Our Knowledge Plus! after-school and summer programs enable students to continue learning even after the last bell rings. Our combination of experienced teachers, individualized attention, and low student to teacher ratios allows student to flourish.

Math Plus!

Our Math Plus! program covers a wide range of essential mathematic principles and concepts including: whole numbers, decimals, number theory, fractions, data analysis, statistics, geometry, ratios, percents and algebra. We believe that these mathematical building blocks are the foundation needed for students to succeed academically. Our balanced, systematic approach creates confident, independent learners in math.
